Our Mission

Rooted in the loving ministry of Jesus as healer, we commit ourselves to serving all persons, with special attention to those who are poor and vulnerable. Our Catholic health ministry is dedicated to spiritually-centered holistic care, which sustains and improves the health of individuals and communities. We are advocates for a compassionate and just society through our actions and our words.

Community Initiatives

Ascension Sacred Heart provides multiple outpatient programs and services to support our mission of caring for the community, with special attention to the poor and vulnerable. Those services include:

Mission in Motion

The Mission in Motion mobile health unit provides free health screenings to persons who are poor, elderly or uninsured. The screenings measure blood pressure, blood sugar and total cholesterol, and can detect anemia. The screenings are helpful in diagnosing conditions that put people at high risk for heart attack, stroke, diabetes and other health problems.

Women's Care Center

The Center provides obstetrics and gynecology services for women. Ascension Sacred Heart is an academic medical center or teaching hospital, which means we provide hands-on training to OB/GYN resident doctors. These residents have completed medical school and are training to become specialists in obstetrics and gynecology. All residents are closely supervised by experienced, board-certified doctors.

Miracle Camp

Miracle Camp provides camps and programs that lift the spirits of children and adults with chronic or life-threatening illnesses. Thanks to this special place, people of all ages may experience a "getaway from the everyday." The camp enriches the lives of its visitors and helps them better cope with the challenges they face by providing therapeutic camp experiences, such as Camp Bluebird for cancer survivors and patients coping with cancer.

Community Health Northwest Florida

Sacred Heart is proud to be a supporter of Community Health Northwest Florida, the area's only Federally Qualified Health Center (FQHC). The center provides primary and preventive outpatient care to the medically needy, uninsured, underinsured and working-poor citizens of Northwest Florida (Escambia and Santa Rosa counties and surrounding areas). With fourteen locations and two mobile dental and medical units for outreach, Community Health Northwest Florida provides a full range of primary

care services including adult primary care; urgent/walk-in care; pediatric care; women's health services; behavioral health and wellness services; oral health services for adults and children; optometry; laboratory; x-ray; pharmacy assistance; healthcare for the homeless; case management; chronic disease management; health education; and other supportive services. Services also include urgent/walk-in care for minor injuries and illnesses.

Special honors

IBM Watson Health™

Ascension Sacred Heart Pensacola has been named one of the nation's 50 Top Cardiovascular Hospitals by IBM Watson Health. The recognition is based on IBM Watson Health's annual study that spotlights the top-performing cardiovascular hospitals in the U.S., based on a balanced, objective scorecard of publicly available clinical and operational data. This is the third time in the past five years Ascension Sacred Heart Pensacola has been recognized with this honor (December 2019).

Florida Hospital Association

Best Hospital Workplace Award to Ascension Sacred Heart Bay for its work in caring for and sheltering area residents impacted by Hurricane Michael. (11/07/19)

PRC

Ascension Sacred Heart was recognized for their excellent care by this national healthcare research and consulting organization at PRC's 2019 awards event.

Truven Health 50 Top Cardiovascular Hospitals

Ascension Sacred Heart has been named a winner of the Truven Health 50 Top Cardiovascular Hospitals award. Truven said the 50 winning hospitals were selected from more than 1,000 U.S. hospitals that "provide outstanding care and set new standards in excellence for this high-profile service line." (2015)
